1 What is a Transporter ID?

A Transporter ID is the 15-character GST-registered ID of the transport company (here, the courier) that will carry your goods. It looks like 06AAPCS9575E1ZR.

You enter it while creating the E-way Bill, so the courier can add the vehicle details (Part B) when your parcel moves.

2 When do you need it?

When the goods value in your consignment (invoice) is more than ₹50,000 — Courier Saathi then asks for an E-way Bill number before it accepts the booking.

Below ₹50,000 you do not need an E-way Bill or Transporter ID for Courier Saathi bookings. (Some states set a higher limit for movement inside the state, but we ask from ₹50,000 to keep you safe.)

IDs are as published by each transporter. Always double-check on the E-way Bill portal (the name shown after you type the ID should match the courier). Availability of a courier depends on your route and account.

4 Step-by-step: from invoice to booking

- 1 Prepare your tax invoice with invoice number, date, item description, HSN code, quantity, value and the buyer's details (GSTIN, or "URP" if the buyer is unregistered).
- 2 Pick the courier you will ship with on Courier Saathi (the Rate Calculator or booking screen shows it) and copy its Transporter ID from the table above.
- 3 Log in to the E-way Bill portal ewaybillgst.gov.in (register once with your GSTIN, or enrol as an unregistered person). Go to E-Waybill → Generate New.
- 4 Fill the transaction type (Outward / Supply), document type (Invoice), invoice number and date, the From and To details (pincodes decide the distance), and the item details with value and tax.
- 5 In the Transporter Details section, type the courier's Transporter ID in the "Transporter ID" field (the name fills in). Leave the vehicle number blank — the courier updates it.
- 6 Submit. You get a 12-digit E-way Bill number. Download or print the E-way Bill.
- 7 On Courier Saathi, create the shipment and paste the 12-digit number in the E-way Bill Number field (it appears when the value is above ₹50,000). Confirm the booking.
- 8 Put a copy of the invoice and the E-way Bill with the parcel (printed or on the phone) so it is available if the goods are checked in transit.

5 Good to know

- The Transporter ID must belong to the courier you actually book. If you change the courier, generate or update the E-way Bill with the new courier's ID.
- An E-way Bill is valid for a limited time based on distance (for normal cargo, 1 day for every 200 km). Book and hand over the parcel well within the validity.
- Goods moving without a valid E-way Bill can be detained and penalised under GST rules — always generate it first.
- Courier Saathi does not generate E-way Bills. Many accounting tools (Tally, Zoho, Busy, Marg and others) can generate them for you.
- This page is general guidance, not tax advice. Rules and exemptions can change — confirm with your CA or the GST portal if unsure.

6 Frequently asked questions

Where do I enter the Transporter ID on Courier Saathi?

You do not enter it on Courier Saathi. You enter it on the E-way Bill portal while generating the E-way Bill. On Courier Saathi you only enter the resulting 12-digit E-way Bill number.

What if my courier is not in the list?

Ask us through a support ticket with the courier name and we will help you find the right ID.

The portal shows a different name after I type the ID.

Do not proceed. Re-check the characters (0 vs O, 1 vs I) and confirm the ID with the courier or our support.

Do I need a vehicle number?

No. When you give the courier's Transporter ID, the courier updates the vehicle number (Part B) for the movement.

I booked without an E-way Bill by mistake.

Above ₹50,000 the booking is blocked without it. If the value was entered wrongly, cancel before pickup (full refund) and rebook with the right value.
